

DANIEL K. SEWELL

ADDRESS: Department of Biostatistics
N338 CPHB
University of Iowa
145 N. Riverside Dr. 52242
PHONE: (319) 384-1585
EMAIL: daniel-sewell@uiowa.edu

EDUCATION

2010-2015	University of Illinois at Urbana-Champaign PhD, Statistics Advisor: Professor Yuguo Chen Dissertation Title: Statistical Models and Inference for Dynamic Networks
2008-2010	University of Arkansas MS, Statistics
2002-2006	Harding University, Searcy, AR BA, Education

RESEARCH INTERESTS

Social network analysis	Infectious disease modeling	Data visualization
Clustering	Statistical computing	
Bayesian methodology	Monte Carlo methodology	Applied scientific problems

POSITIONS

2025-Present	University of Iowa Professor, Department of Biostatistics	Iowa City, IA
2026-Present	University of Iowa Full Member of the Holden Comprehensive Cancer Center	Iowa City, IA
2021-2025	University of Iowa Associate Professor, Department of Biostatistics	Iowa City, IA
2015-2021	University of Iowa Assistant Professor, Department of Biostatistics	Iowa City, IA
2020-Present	University of Iowa Faculty Affiliate at the UI Public Policy Center	Iowa City, IA

AWARDS

- 2025 College of Public Health Faculty Research Award, University of Iowa
2025 Nominated for Student Supervisor of the Year Award
2025 International Travel Award, University of Iowa
2025 Dr. Carol S. Gleich Development Award
2025 Investment in Strategic Priorities Award, Office of the Executive Vice President and Provost, University of Iowa
2023 Inducted into the Delta Omega Honorary Society in Public Health
2023 Dr. Carol S. Gleich Development Award
2023 International Travel Award, University of Iowa
2023 President & Provost Award for Teaching Excellence College of Public Health Nominee
2022 College of Public Health Faculty Teaching Award, University of Iowa
2022 President & Provost Award for Teaching Excellence College of Public Health Nominee
2019 International Symposium on Network Enabled Health Informatics, Biomedicine and Bioinformatics Best Paper Award
2017 Junior Faculty Research Opportunity Award, College of Public Health, University of Iowa
2015 New Faculty Research Award, College of Public Health, University of Iowa
2015 University of Illinois nomination for CGS/ProQuest Distinguished Dissertation Award (limit 1 nomination per university)
2014 Patrick J. Fett award for the best paper on the scientific study of Congress and the presidency
2014 Finalist for the Norton Prize for Outstanding Doctoral Thesis in Statistics
2014 University of Illinois Graduate College Travel Award
2007 Outstanding Calculus Award, Harding University

ADVISING

–PHD ADVISOR–

2021	Elliot Burghardt	“Agglomerative and Divisive Hierarchical Bayesian Clustering with Methods for Longitudinal and Time-to-Event Data”
2024	Hannah Pham	“Bayesian Latent Space Approaches to Network Analysis”
2024	Haomin Li	“Model-Based Edge Clustering for Networks: Theory and Applications”
2025	Alan Arakkal	“Methodological and Computational Advances in Model-Based Community Detection” (Tentative title)
Current	Scott Clevon	“Network Moderated Regression Techniques” (Tentative title)
Current	Kailey Mulligan	“Agent Based Models for Infectious Disease: Estimation and Methodology”
Current	Mark Krysan	“Advances in General Bayesian Inferential Techniques” (Tentative title)

–MS ADVISOR–

2016	Amy Hahn	“Testing associations between geographical patterns and network connectivity via latent space community detection models”
2019	Hannah Pham	“Quantifying Changes in Physical Activity Compositions of a Community in Iowa”
2019	Haomin Li	“A comparison of estimators for the network autocorrelation model based on observed social networks”
2021	Scott Cleven	“Differing Trends in Neurodegeneration between Prodromal Patients with Huntington’s Disease and Healthy Controls”
2021	Blaize Kandler	“Comparing Methods for Analyzing Clustered Data”
2021	Seungwon Kim	“Identifying individual and household risk factors for malaria in the Democratic Republic of the Congo using generalized linear mixed models”
2023	Sabin Gaire	“Assessing the Validity and Reliability of Tractive GPS devices”
2025	Mark Krysan	“Powering enteric disease models through characterization of infant behaviors and caregiver mitigation practices in low – and middle – income Kenyan neighborhoods”

–PHD COMMITTEE–

Committee member	Brandon Butcher	Biostatistics
	Christine Kava	Community and Behavioral Health
	Samuel Justice	Statistics and Actuarial Science
	Seungwon Kim	Geographical and Sustainability Sciences
	Adriana Maldonado	Community and Behavioral Health
	Kyle Peterson	Interdisciplinary Graduate Program in Informatics
	Michael Seedorff	Biostatistics
	Eldon Sorenson	Biostatistics
	Caitlin Ward	Biostatistics
	Annika Helverson	Biostatistics
	Logan Harris	Biostatistics
	Devin Spolsdoff	Biostatistics

EDITORIAL BOARDS

Computational Statistics & Data Analysis	Associate Editor (Current)
Scientific Reports	Associate Editor (Current)
Journal of Data Science	Guest editor for “Advances in network data science”
Journal of the American Statistical Association	Associate Editor

FINANCIAL SUPPORT

–ACTIVE–

(Co-PI) A One Health Exposure Assessment Approach to Identify Spatial-temporal, Behavioral, and Ecological Strategies for the Eradication of Guinea Worm Disease in Dogs and Cats in Ethiopia (Awarded through the Carter Center)

(Co-PI) SMART Cancer Care Teams: Enhancing EHR Communication to Improve Interprofessional Teamwork (5 R01 CA 273058)

(Co-PI) The CONNECT-AD Study: Communication and Network Navigation for Effective Care Teams in Alzheimer's Disease and Alzheimer's Disease Related Dementias (AD/ADRD) (1 R56 AG 090503)

A Pharmacist Intervention for Monitoring and Treating Hypertension Using Bidirectional Texting (1 R61 HL 144880)

University of Iowa Prevention Research Center for Rural Health (5 U48 DP005021; 6 U48 DP006389-02; 5 U48 DP006812)

Iowa Summer Institute for Research Education in Biostatistics (1 R25 HL 147231)

–COMPLETED–

(Co-PI) Statistical and Agent-based Modeling of Complex Microbial Systems: A Means for Understanding Enteric Disease Transmission Among Children in Urban Neighborhoods of Kenya (1 R01 TW 011795)

University of Iowa COVID-19 Flex Funding Award

Contact Network Transmission Modeling of Healthcare Associated Infections (5 U01 CK 000531)

Connected Cancer Care: EHR Communication Networks in Virtual Cancer Care Teams (1 R21 H S026075)

Grinnell College & U. Iowa Residential College/Schools Prevention and Control of SARS-CoV-2

Market to Mouth Infant Food Contamination Study: A Collaboration between the Safe Start Study and IFPRI (2018X134.UOI)

Care Coordination Networks (UI Public Policy Center Summer Scholars Project)

Statistical Disease Modeling and Clinimetrics to Prepare for Preventive Trials in Huntington Disease (5 R01 NS 103475)

Preparing for Preventive Clinical Trials in Huntington's Disease (1 R01 NS 105509)

New Faculty Research Award

Junior Faculty Research Opportunity Award

e-Health (82154300)

PRESENTATIONS

–INVITED TALKS–

2026 “Capturing inter-parameter relationships in priors through exponential tilting,” at the *ASA Midwest Regional Conference in Statistics and Data Science*, Minneapolis, MN

2026 “Climate, Societal Development, and Hygiene Determinants of Enteric Pathogen Transmission at the One Health Interface in two Kenyan Cities,” at *CUGH Annual Conference*, Washington D.C.

2026 “Capturing inter-parameter relationships in priors through exponential tilting,” at the Department of Statistics and Actuarial Science, University of Iowa

2025 “Camouflaged connections: Noise clusters in network community detection,” at the Summer Session of the Working Group on Model-Based Clustering, Sophia Antipolis, France

2025 “WECAN: Weighted Edge Clustering Adjusting for Noise,” at Sunbelt INSNA Annual Conference, Paris, France

2025 “From data to decisions: How to leverage the networks in which we are embedded to improve health outcomes,” at Industrial and Systems Engineering, University of Iowa

2024 “Homophily-adjusted social influence estimation,” at *Joint Statistical Meetings*, Portland, OR

2024 “Healthcare disparities exhibited in length of stay for inpatient visits,” for the CDC MInD Healthcare Network, Virtual

- 2023 “Divisive Hierarchical Bayesian Clustering on Longitudinal Data: Identifying Parkinson’s Disease Subtypes,” at *Joint Statistical Meetings*, Toronto, CA
- 2023 “Agglomerative and Divisive Hierarchical Bayesian Clustering,” at the Summer Session of the Working Group on Model-Based Clustering, Pittsburgh, PA
- 2023 “Comparing multiple infection control measures in a nursing home setting: A simulation study,” for the CDC MInD Healthcare Network, Virtual
- 2022 “The community-hospital feedback loop,” at the MInD Grantee Meeting 2022, Atlanta, GA
- 2022 “Automated detection of edge clusters,” at Social Networks and Beyond, New York, NY
- 2021 “Model-based edge clustering,” at the Summer Session of the Working Group on Model-Based Clustering, Athens, Greece
- 2020 “Model-based edge clustering,” at the University of Iowa, Department of Statistics
- 2020 “Facing the Facts: The Role of Face Coverings in Containing COVID-19” College of Public Health webinar on face coverings
- 2020 “Understanding, Predicting and Planning for Resilience- Epidemiologic Modeling,” Office of the Vice President for Research Webinar on COVID-19
- 2020 “Mining Social Network Data - EDA & Visualization ,” ASA Statistical Learning and Data Science Section webinar series “Introductory Overview Lectures in Data Science”
- 2019 “Model-based edge clustering,” at Shambaugh Conference on International Relations and Network Analysis, University of Iowa
- 2019 “Multilinear tests of association between two networks,” at Classification and Data Analysis Group Meeting, Cassino, Italy
- 2018 “Heterogeneous susceptibilities in network influence models,” at CMStatistics, Pisa, Italy
- 2018 “Estimating the attributable disease burden and effects of inter-hospital patient sharing on *Clostridium difficile* infections in California,” at the International Conference on Emerging Infectious Diseases, Atlanta, GA
- 2017 “Simultaneous and temporal autoregressive network models,” at Iowa State University, Department of Statistics
- 2017 “Statistical analysis of networks in bioinformatics: Getting the right data,” Informatics Showcase, University of Iowa
- 2017 “Measuring electronic communication networks in virtual healthcare teams using electronic health records ccess-log data,” with Zhu X, Tu SP, Hall L, Mishra V, Yao A, Dow A, and Banas C., at *Sunbelt INSNA Annual Conference*, Beijing, China
- 2017 “The effects of analyzing subsets of hospital patient transfer networks” at the University of Iowa, Department of Geographical and Sustainability Sciences
- 2016 “Clustering dynamic and evolving data” at the University of Iowa, Department of Biostatistics
- 2016 “Clustering dynamic and evolving data” at the University of Iowa, Department of Political Science
- 2016 “Simultaneous and temporal autoregressive network models,” at *Sunbelt INSNA Annual Conference*, Newport Beach, CA
- 2016 “Social network analysis,” at the Center for Comprehensive Access And Delivery Research And Evaluation
- 2015 “Latent space models for dynamic networks,” at the University of Iowa, Department of Statistics and Actuarial Science
- 2015 “Latent space models for dynamic networks,” at the University of Iowa, Department of Computer Science
- 2015 “Analysis of the formation of the structure of social networks,” at 17th *Meeting of New Researchers in Statistics and Probability*, Seattle, WA
- 2015 “Latent space models for dynamic networks,” at Texas A&M
- 2015 “Latent space models for dynamic networks,” at Duke University
- 2015 “Latent space models for dynamic networks,” at the University of Michigan
- 2015 “Latent space models for dynamic networks,” at the University of Missouri
- 2015 “Latent space models for dynamic networks,” at Notre Dame University

- 2015 “Latent space models for dynamic networks,” at the University of Alberta
- 2015 “Latent space models for dynamic networks,” at the University of Colorado, Denver
- 2015 “Latent space models for dynamic networks,” at Portland State University
- 2015 “Latent space models for dynamic networks,” at University of Iowa, Department of Biostatistics
- 2015 “Latent space models for dynamic networks,” at Binghamton University
- 2015 “Latent space models for dynamic networks,” at Miami University
- 2014 “Legislative style,” with W. Bernhardt and T. Sulkin, *Annual Meeting of the Midwest Political Science Association*, Chicago, IL
- 2014 “Latent space models for dynamic networks,” *Midwest Statistics Research Colloquium*, Chicago, IL

–INVITED POSTERS–

- 2026 “Characterizing Component Groups of Healthcare Professionals In Cancer Care Multiteam Systems,” at *AcademyHealth Annual Research Meeting*, Seattle, WA
- 2024 “Enteric pathogen prevalence, incidence and clearance rates, and shedding intensity in urban Kenyan infants from molecular testing of sequential fecal samples,” at *ASTMH Annual Meeting*, New Orleans, LA
- 2020 “Estimating the Impact of County Boundaries on State-wide Patient-sharing Network Models,” at *Decennial 2020: 6th International Conference on Healthcare Associated Infections*, Atlanta, GA
- 2020 “Exploring the Potential Limitations of Using Medicare Data to Study the Spread of Infections from Hospital Transfers,” at *Decennial 2020: 6th International Conference on Healthcare Associated Infections*, Atlanta, GA

–CONTRIBUTED TALKS–

- 2016 “Simultaneous and temporal autoregressive network models,” at *Joint Statistical Meetings*, Chicago, IL
- 2015 “Analysis of the formation of the structure of social networks,” at *Joint Statistical Meetings*, Seattle, WA
- 2014 “Detecting influence in dynamic networks,” *Joint Statistical Meetings*, Boston, MA
- 2014 “Community detection for dynamic networks,” *Bohrer Workshop in Statistics*, Department of Statistics, University of Illinois at Urbana-Champaign
- 2013 “Latent space models for dynamic networks,” *Bohrer Workshop in Statistics*, Department of Statistics, University of Illinois at Urbana-Champaign
- 2011 “A parameter estimation method for single molecule fluorescence lifetime data,” *Bohrer Workshop in Statistics*, Department of Statistics, University of Illinois at Urbana-Champaign

–WORKSHOPS–

- 2020 Webinar on “Introductory Overview Lectures in Social Networks” through the American Statistical Association Web-Based Lectures
- 2019 Short course “Introduction to statistical analysis of network data” at Sapienza Università di Roma
- 2019 Short course “Networks in R” at *University of Iowa Data Science Institute* (Summer)
- 2017 Short course “Networks in R” at *University of Iowa Data Science Institute* (Summer)
- 2017 Short course “Introduction to R” at *University of Iowa Data Science Institute* (Winter)
- 2016 Workshop on “Introduction to R,” at *Informatics Showcase*, University of Iowa

PROFESSIONAL ACTIVITIES

2026-present	Associate Editor, Computational Statistics & Data Science
2024-present	Associate Editor, Scientific Reports
2022-2025	Associate Editor, Journal of the American Statistical Association
2021-present	Guest Editor, Journal of Data Science
2018-present	Biostatistics Colloquium Committee (Chair)
2018-2020	Chapter representative of the Iowa Chapter of the American Statistical Association
2016-2018, 2020	Faculty mentor for the Iowa Summer Institute in Biostatistics at the University of Iowa
2016-2017	Member of faculty search committee for the Department of Biostatistics at the University of Iowa
2015-2018	Member of the advanced statistical computing course exploratory committee for the Department of Biostatistics at the University of Iowa
2015-present	Member of M.S. Exam Committee for the Department of Biostatistics at the University of Iowa
2015-present	Member of the computing committee for the Department of Biostatistics at the University of Iowa
2015-2018	Member of graduate admissions committee for the Department of Biostatistics at the University of Iowa
2015-present	Member of the awards committee for the College of Public Health at the University of Iowa
2015-2016	Member of student paper award committee of the ASA nonparametric statistics section
2016	College of Public Health representative and member of the Hancher-Finkbine dinner medallion selection committee at the University of Iowa
